<b>PHOTO BY:</b> Unknown	
<b>DESCRIPTION:</b> Reacquiring targets selected in a DGM grid	

CAMP CROFT RI/FS	
<b>DATE:</b> <b>PHOTO #:</b> 7	 A photograph showing the foundation of a building in a wooded area. The foundation is made of concrete blocks and is partially obscured by a dense thicket of bare, tangled tree branches and undergrowth. The ground is covered with dry leaves and twigs.
<b>DIRECTION:</b> Unknown	
<b>PHOTO BY:</b> Unknown	
<b>DESCRIPTION:</b> Foundation of a building discovered near Lake Johnson	

CAMP CROFT RI/FS	
<b>DATE:</b> <b>PHOTO #:</b> 8	 A close-up photograph of a fuze mortar shell unearthed in a grid. The shell is cylindrical and has a reddish-brown, rusted appearance. It is lying on a dark, moist soil surface. The shell has a blue and white painted section at one end. Several tree roots are visible in the soil around the shell.
